

# Zero to One

Peter Thiel

## 8-slide visual summary

Core concepts • mental models • easy-to-remember diagrams •  
practical takeaways

# Zero → One

Creating something new differs from copying what already works.

**1 → N**

copy / scale

**0 → 1**

create / discover

- 1→N means replication.
- 0→1 means creation.
- Great startups search for a differentiated future.

# Monopoly > Competition

A durable advantage is better than endless price competition.

## COMPETITION

Many firms Similar offers Margin pressure

## MONOPOLY

Unique value Defensible position More control

- Own a narrow market first.
- Be meaningfully different.
- Expand after dominance.

# The Secret

Look for a valuable truth that few people understand.

**What do we know that others miss?**

- The secret can be technological or market-based.
- Ask what you know that others miss.
- Build around the insight.

# Defensible Advantage

A company needs a reason it can stay exceptional.

**Technology**

**Network**

**Scale**

**Brand / distribution**

- Proprietary technology.
- Network effects.
- Economies of scale.
- Brand or distribution.

# Distribution Matters

A great product still needs a path to customers.

- Know the customer.
- Choose the right channel.
- Design distribution early.
- Retention matters.

# Start Narrow

Win a small market before expanding.

**SMALL MARKET**

**WIN → DOMINATE → EXPAND**

- Find a painful problem.
- Solve it exceptionally.
- Dominate the niche.
- Then broaden.

# Memory Map

Secret → 0→1 → Small Market → Monopoly → Scale

- Create something differentiated.
- Build a moat.
- Win a narrow market before the world.
