

The Lean Startup — Action Workbook

Eric Ries • Convert ideas into actions

Instructions: Write specific answers. Choose fewer actions and actually execute them. Review after 7 and 30 days.

1. Biggest Assumption

What must be true for your idea to work?

2. Riskiest Hypothesis

Write it as a testable statement.

We believe that _____ because _____

3. MVP

What is the smallest experiment that could generate useful evidence?

MVP/experiment: _____

Time required: _____

Users needed: _____

4. Measure Behavior

Which metric reflects real customer value rather than activity?

Metric: _____

Baseline: _____ Target: _____

The Lean Startup — Action Workbook (Execution)

Turn the concepts into a repeatable personal system.

5. Build → Measure → Learn

BUILD: _____

MEASURE: _____

LEARN: _____

6. Pivot or Persevere

What evidence would make you continue? What evidence would make you change direction?

Persevere if: _____

Pivot if: _____

7. 7-Day Experiment

Run the smallest useful test this week.

Action: _____

Date: _____ Result: _____

What changed in my belief? _____

30-Day Review

What did I actually change? What result did I see? What will I keep, stop or change?
