

Thinking, Fast and Slow — Action Workbook

Daniel Kahneman • Convert ideas into actions

Instructions: Write specific answers. Choose fewer actions and actually execute them. Review after 7 and 30 days.

1. Decision Audit

Choose one important decision you are currently making.

Decision: _____

Stakes: _____

2. Slow-Down Trigger

Why does this decision deserve deliberate thinking?

☐ High stakes ☐ Uncertainty ☐ Statistics ☐ Irreversible ☐ Emotional

3. Base Rate

What normally happens in similar situations? Find/use an outside reference if possible.

Base rate: _____

4. Bias Check

- ☐ What number am I anchored to?
- ☐ Am I over-weighting a vivid example?
- ☐ Am I confusing similarity with probability?
- ☐ What evidence would prove me wrong?
- ☐ Am I too confident?

Thinking, Fast and Slow — Action Workbook (Execution)

Turn the concepts into a repeatable personal system.

5. Outside View

Write the decision as if it belonged to a stranger. What would you advise them?

6. Probability & Confidence

My estimated probability of success: _____ %

What evidence supports it? _____

What evidence argues against it? _____

7. Decision Rule

What will I decide, and what future evidence would make me revisit it?

Decision: _____

Revisit trigger: _____

30-Day Review

What did I actually change? What result did I see? What will I keep, stop or change?
